WILMINGTON, N. C.,
FRIDAY, AUGUST 6, 1875.

Had Work for a Long Time.
We learn that one Isaac Isaac, on yesterday made good his escape from the hands of the Sheriff, George Armstrong, who was attempting to arrest him for a debt of \$100, the property of R. A. Corbett. The Sheriff did not know, as Isaac could not be overtaken, Isaac a colored man, and was a member of the first grand jury of the new county of Pender.

The Turpentine.
A meeting of the Directors of the Wilmington and Coast Turpentine Company was held yesterday evening at the Purcell House, at 4 o'clock. After the transaction of considerable business, the company, the subject of building the turpentine, was discussed, and it was decided to commence the work at once, and to accomplish this purpose the treasurer was ordered to call in the ten per cent of the stock subscribed.

We learn that the company has decided upon the following as the most desirable route:

Beginning at Market and Seventh streets, running near the south side of Green's mill branch, passing between Porters and Bonaumes, through Martins, Savannah, crossing the Greenville road just west of Lewis Martin's, and running thence northwesterly, to the mill dam to the head of Lee's creek.

The adoption of this route will make it easy to construct branches of the line to Wrightsville, Greenville and Marshaville.

We are requested to state that persons wishing to contract for clearing and ditching the road, will confer with the Engineer, Capt. Rod Mackie, before Friday next, who will appoint a time to show the route adopted.

A Hoglet Frolicked.
On Sunday morning about two o'clock a hoglet entered the residence of Mr. Solomon Bear on Red Cross between First and Second Streets. He effected his entrance through a window on the back piazza and as soon as he was safely within he proceeded to open all the doors of the house, in order to have free passage for his escape in case he was discovered. He then went to the bedroom of Mr. Bear and while he was there he saw Mr. Bear and his wife, and he immediately drove Mr. Bear and his wife from the house. She was so frightened that she almost swooned but her faint screams aroused Mr. Bear who was sleeping in the parlor on a lounge. Mr. Bear rushed into the room just in time to see the hoglet pass through the window. He seized a pistol and gave chase, but was unable to get a shot at the scoundrel as he jumped from the parlor on the second floor to the ground, a distance of twenty feet, and succeeded in making his escape.

Pender County Commissioners' Meeting.
The Board met yesterday in regular monthly session, all of the four members being present.

The Board gave notice to all the bonded officers of the county to renew their bonds on the 1st Monday in September.

The bond of James B. McPherson, for \$20,000 as tax collector, was accepted.

It was ordered that the county treasurer be requested to give a separate bond of \$8,000 for the school fund.

The Board of Education also had a sitting, and recommended to the school committee of the several townships that the salaries of teachers be fixed at the sums of \$15, \$25 and \$30 per month, according to the different grades.

The Carvers.
Nothing has contributed so greatly to the amusement of the county as the dirty language of Gressy Sam Watts, who has been in the county for some time.

"Little Dan Russell" made a complete failure in his speech at Taylorsville. He did not know his subject, and he did not know his audience.

Dr. Wheeler, the radical candidate for Governor, comes out in favor of a law abolishing the poll tax. That would prevent the negro population from taxation, and therefore, as few of them have property.

Alexander county is sure for the conservatives. Watts and Argo have been here.

From every quarter of the State the news is most cheering. A Democratic victory is an assured thing.

The Wilson Advance gives the following cheering news from the Eastern counties. Says that party:

"We are proud to hear the good news that comes from various quarters. From every quarter, the good glad tidings are brought. That B. B. B. is a triumphant sign at every point. B. B. B. is the sure sign. The white men of Nash are aroused and will do their duty."

From Wayne, the news is good. Hon. W. B. D. is in the State, and he is a man with marked ability and skill. The Advance, Fayette, has a hard road to travel, and yet with an humble christian, he won the hearts of men more than any one we ever knew. The Cavalier Bayard of his age, wherever he was known, men were ready to follow him blindly to the death. Worthily daughter of a noble race, he was CHRISTIAN REID, whom we delight to honor.

Not is this the only star. Another of Carolina's fair daughters, younger, is introduced in the world of letters, and is now upon the Old State. Mrs. George W. HARRIS, of our own city is one of the brightest literary luminaries of this or of any other State. Her story, Margaret Rossely, written expressly for "Our Living and Our Dead," is of itself sufficient to establish her position beyond doubt in the foremost rank among the most accomplished writers of fiction in the South. True to nature than Vasilis or Bern, or St. Elmo, and of a much higher intellectual cast than Rose or Mossie or Nemesis, Margaret Rossely, thus far asserts and maintains its right to a place in the highest rank of literary effort. And we mean what we say, for though somewhat critical, perhaps fastidious in our task, we read with interest and pleasure. North Carolina may indeed well be proud of such a charming addition to her circle of literary celebrities.

Success then say we to "Our Living and Our Dead."

The Carvers in Pender County.
The speaking at South Washington, N. C. by R. A. Corbett, Esq., and Gen. J. M. Leach.

On yesterday the Democrats of Pender had a rousing meeting at South Washington, and were addressed in a most enthusiastic and telling speech from R. A. Corbett, Esq., and Gen. J. M. Leach.

A large number of the good people of Pender assembled to meet Mr. Corbett at one of his regular appointments; and while that gentleman more than satisfied them for the time and trouble of assembling to hear him, they were the fortunate recipients of a great surprise in the fact that General Leach was, by accident, present to address them also. His presence was purely accidental, and was owing to the fact that, coming to the city on yesterday morning's train, he found that the train was late, and he was obliged to wait for the train to come. He was then informed that the train was late, and he was obliged to wait for the train to come.

It was indeed a day long to be remembered by the citizens of Union Township and others from the surrounding country, who flocked in to South Washington where the news was sent from the Weldon train as it passed through the county that Leach was to speak.

There was but one expression of opinion from all who were present: one of great satisfaction with their candidate for Convention, and unbounded enthusiasm for the masterly and conclusive argument of Gen. Leach.

The few Democrats who were doubtful of the propriety of calling a Convention, left the grounds fully convinced that a Convention could not have been held so soon, and that the people of North Carolina could not with safety to the welfare of the State, again entrust the powers of a Convention to any but members of the Democratic party.

Leach handled the Radicals with gloves off. He showed the people that this party was not only responsible for the evils which had grown out of the Cady Constitution, but for all the miseries, the pollution, the corruption, the poverty and distress which had been heaped upon the Southern States since the star of the Confederacy went down at Appomattox and Bentonville. The scathing irony and sarcasm of the speaker was almost unbearable even to the Radical candidate for Convention, who had the temerity and audacity to put in his appearance.

Not a white man was present who went away believing that anything of honesty, decency or integrity, could be found outside of the Democratic Conservative ranks.

General Leach has done noble service in the present campaign, and in no section of the State has he been more successful than in the hearts of the people of Pender.

At the conclusion of his speech, which was greeted with rounds of merrier and merrier applause, he began to sing. The audience gave him three times, three cheers, and did not disperse until they had, by resolute declaration, made him their first choice for the next candidate for Governor.

Our Living and Our Dead.
The August number of this valuable periodical has been published. It is a book which we can all read with interest and pleasure. It is a book which we can all read with interest and pleasure.

The Board of Education also had a sitting, and recommended to the school committee of the several townships that the salaries of teachers be fixed at the sums of \$15, \$25 and \$30 per month, according to the different grades.

The bond of James B. McPherson, for \$20,000 as tax collector, was accepted.

It was ordered that the county treasurer be requested to give a separate bond of \$8,000 for the school fund.

The Board of Education also had a sitting, and recommended to the school committee of the several townships that the salaries of teachers be fixed at the sums of \$15, \$25 and \$30 per month, according to the different grades.

What a Negro Thinks About Stealing.
We are informed, and upon good authority, that John Beaman, the negro Radical leader of Duplin, in a speech at Magnolia, on Saturday, the 31st ult., declared that the negro would continue to steal till the white people raised their wages and treated them better.

And yet the only thing that keeps this man from being an office-holder, and having control over the affairs of honest white men is the fact that white men are in the majority in Duplin. Can any man hesitate as to which party he will vote for?

The Orphans.
On Wednesday evening at the Opera House at eight o'clock, our people were afforded the opportunity of attending one of those free and pleasant entertainments given by Mr. J. H. Mills, Superintendent of the Orphan Asylum at South Washington, where he had an appointment to speak on yesterday. What was the loss of Robeson resulted to the gain of Pender, and while we deplore the disappointment to the good people of the one county, we congratulate those of the other upon their good luck.

It was indeed a day long to be remembered by the citizens of Union Township and others from the surrounding country, who flocked in to South Washington where the news was sent from the Weldon train as it passed through the county that Leach was to speak.

There was but one expression of opinion from all who were present: one of great satisfaction with their candidate for Convention, and unbounded enthusiasm for the masterly and conclusive argument of Gen. Leach.

The few Democrats who were doubtful of the propriety of calling a Convention, left the grounds fully convinced that a Convention could not have been held so soon, and that the people of North Carolina could not with safety to the welfare of the State, again entrust the powers of a Convention to any but members of the Democratic party.

Leach handled the Radicals with gloves off. He showed the people that this party was not only responsible for the evils which had grown out of the Cady Constitution, but for all the miseries, the pollution, the corruption, the poverty and distress which had been heaped upon the Southern States since the star of the Confederacy went down at Appomattox and Bentonville. County Commissioners.
The Board of County Commissioners met yesterday at 3 o'clock, pursuant to adjournment. Present, Chairman Wilson, Commissioners: W. W. Morris, Van Arman, and Wagon. The following changes were made in the Inspectors of Election: THIRD WARD, J. C. So. It was substituted in place of James Dry.

FOURTH WARD, Walter Farlow was substituted in place of Nathaniel Jacob. The following resolution was passed: Whereas it is ascertained that several parties have not complied with the law in giving in their property for taxation, and Whereas the Board of Commissioners is authorized to subpoena such parties to appear before the Board with their claims duly sworn, and Whereas the Committee on Work House submitted the following report:

Resolved, That the Chairman of the Board be authorized to subpoena such parties to appear before the Board with their claims duly sworn, and Whereas the Committee on Work House submitted the following report: The following named persons appeared and made the annexed statements under oath, to the effect that they were well worked; the person clean, but the punishment was very much increased in fact, too much so to be allowed to remain in the county. Your committee being so much impressed with the treatment, they employed Dr. J. H. King, a leading physician in this city, to examine the condition of the convicts now in the Work House, whose report was presented to the Board. He examined all the prisoners present. We found, on close examination, that the prisoners had been and were fed on good food as far as the diet was concerned, but the punishment was very much increased in fact, too much so to be allowed to remain in the county. Your committee being so much impressed with the treatment, they employed Dr. J. H. Your committee being so much impressed with the treatment, they employed Dr. J. H. King, a leading physician in this city, to examine the condition of the convicts now in the Work House, whose report was presented to the Board. He examined all the prisoners present. We found, on close examination, that the prisoners had been and were fed on good food as far as the diet was concerned, but the punishment was very much increased in fact, too much so to be allowed to remain in the county.
